

BA (Hons) Business Management (Accounting & Finance)

Awarded by Arden University, United Kingdom · Delivered in Bangkok by ADVEX Management School

Financial reporting, control and analysis for finance functions and owner-managers.

This is the route for people who already work with the numbers and now need the qualification that goes with the responsibility — accounts staff moving into management, and owners who sign off figures they would rather understand properly.

Financial Management and Business Risk Management sit alongside the core business modules, so you leave able to read a set of accounts, price a decision and defend it to a board.
