

BA (Hons) Business Management

Awarded by Arden University, United Kingdom · Delivered in Bangkok by ADVEX Management School

Strategy, operations, people and finance for those who lead across a whole organisation.

You already run something — a team, a branch, a family business, a function. What you may not have is the degree that lets other people see it. This final year turns the experience you already hold into a full British honours degree.

Six modules, no examinations. You work through transformation, governance, project delivery and international trade using Arden's business simulation software, where you run a virtual company and live with the consequences of your own decisions — then finish with an Independent Study on a question that matters inside your own organisation.
