

MSc Accounting and Finance (Top-Up)

Awarded by Arden University, United Kingdom · Delivered in Bangkok by ADVEX Management School

Advanced reporting, corporate finance and analysis for qualified and part-qualified accountants.

Qualified accountants already hold most of a master's without the certificate to prove it. Arden recognises qualified status from ACCA, CIMA, ICAEW and equivalent bodies with six module exemptions — 120 of the 180 credits.

What remains is the Financial Management Project: 60 credits of applied research on a question in accounting or finance that you choose. It is the shortest legitimate route from professional qualification to a full UK master's degree.
