

MSc Business Transformation

Awarded by Arden University, United Kingdom · Delivered in Bangkok by ADVEX Management School

Change, process and organisational redesign for those asked to make a business work differently.

Someone in every growing company gets handed the sentence 'we need to change how we do this'. This master's is for that person: change management, agile delivery, supply chain, cloud systems and big data, taught as one connected job.

The programme is hands-on with the software as well as the theory, and ends with a 60-credit Business Transformation Project applied to a real organisation.
