

MSc Strategic Human Resource Management

Awarded by Arden University, United Kingdom · Delivered in Bangkok by ADVEX Management School

Strategic people management, reward and organisational capability for HR leadership.

The step from HR manager to head of people is a change of subject, not of seniority: workforce planning, employment law, culture change, analytics and reward strategy. This master's teaches that subject.

People Analytics and Value Creation is the module most students say changes how they are heard in the boardroom — the ability to put a number on a people decision. The programme closes with a 60-credit Research Project.
